

see what Delta can do

#### Water is our life.

That fortunate combination of two hydrogen atoms and one oxygen atom is essential to all living things. It's central to human civilization. And at Delta® Faucet, it's all we think about. We created the first successful washerless ball valve faucet in 1954. We formed our company shortly thereafter. And every day since, we've devoted our professional lives to the relationship between people and water.

We spend hours studying the ways people interact with their faucets, showers and bathtubs. We learn from those observations. We theorize. We experiment. We innovate. By constantly crafting bold styles and revolutionary technologies, we change the ways in which water is delivered. And by creating new beauty, new convenience and even new sensations, we are helping water to do its miraculous work: removing cares, promoting health and transforming lives.

## How to find smart features in this catalog.

From DIAMOND™ Seal Technology to water-efficient products, these simple icons make it easy to identify any product's features at a glance.

DIAMOND Seal Technology

InnoFlex® Pex Waterways

DIAMOND™ Valve

EZ Anchor®

MagnaTite® Docking

Multi-Flow™ Technology

Water-Efficient Product

Kitchen Faucets: flow rate of  $1.5~\rm gpm$  or  $1.8~\rm gpm$  versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.2 gpm and meet CALGreen standards.

Lavatory Faucets: flow rate of 1.5 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.2 gpm and meet CALGreen standards.

Showerheads and Handshowers: flow rate of 1.5 or 2.0 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.5 gpm and meet CALGreen standards.

WaterSense Labeled Product

More than 80% of Delta bath suites feature showerheads, handshowers and faucets that meet WaterSense requirements.

WaterSense® is a registered trademark of the U.S. Environmental Protection Agency.

Delta products intended for drinking water are compliant with all Federal and State low lead legislation.

# A full spectrum of finishes.

Delta faucets are available in a variety of finishes that add warmth, texture, depth and color to your kitchen and bath.

#### Delta® Vision.

Wondering how that Delta kitchen or bath faucet would look in your home? There's no need to depend on imagination alone. Download our Delta Vision app, choose a faucet, take a photo of your sink and counter, and digital magic will put them together.

# Sometimes, what goes on in a kitchen is as nourishing as what comes out of it.

A kitchen at its best is a nexus of social activity. A natural gathering place for our families and friends and an open forum where we share experiences as we work—feeding our spirits, as well as our bodies. With each story exchanged over the sink, we are building moments that matter—and strengthening our ties with those we value most.

# We like to think of ourselves as an essential ingredient in any kitchen.

Our faucets don't just fill pots. They satisfy needs. Your requirements are the driving force behind every new faucet style and technology we create for the kitchen. And because our products are as durable as they are reliable and good-looking, they'll be adding to your life for years to come.

#### TOUCH<sub>2</sub>O® TECHNOLOGY:

Not the handle-turning kind? Faucets equipped with our Touch<sub>2</sub>O Technology let you turn the water flow on and off with the simple touch of a finger. (Or a wrist. Or your elbow. It's your faucet, and we're not here to dictate terms.)

#### DIAMOND™ SEAL TECHNOLOGY:

Because we wanted our faucets to stay leak-free for a long time, we created a solution that started with diamonds (which, as the saying goes, are forever). Delta® Faucet's exclusive DIAMOND Seal Technology uses a valve with a tough diamond coating combined with InnoFlex® PEX one-piece waterways, creating a faucet that can last a lifetime.

#### MAGNATITE® DOCKING:

To keep our faucets' pull-down spray wands in place when they're not being used, we use a powerful magnet—a feature that may attract you, as well.

(As you're about to spend the next 40 pages finding out.)

# The bathroom is a place to wash the day away. And grime. And generally speaking, both.

Maybe you're washing your hands before dinner. Perhaps you're bathing someone smaller and messier than you. Or—wonder of wonders—it could be that you're taking advantage of that all-too-rare opportunity to draw a long, lingering bath for yourself. Whatever the reason, Delta® products are there for you, to make the experience as easy, efficient and transformative as we can.

# We've had some of our best ideas in the bathroom. And a lot of them are still in there.

Delta® Faucet was founded on innovation. And we've been re-founded on innovation each day since. Our products for the bathroom explore new avenues in fashion and technology, helping you to clean, refresh and relax yourself any way you like.

#### TOUCH<sub>2</sub>O<sub>.XT</sub>™ TECHNOLOGY:

If your faucet's equipped with Touch<sub>2</sub>O<sub>.xt</sub> Technology, you can just touch the spout to turn it on or off. Or, if you prefer your convenience to be a little more convenient, you can just hold your hands under the spout and let the faucet activate the flow for you.

#### **TEMPSENSE™ TECHNOLOGY:**

Faucets equipped with TempSense Technology feature an LED light that changes color from blue to magenta to red—alerting users to their water's temperature and eliminating any possible surprises or discomfort.

#### **WATER-EFFICIENT PRODUCTS:**

Our water-efficient faucets and showers help conserve water by providing a lower flow rate. It's a nice thing to do for the planet (to say nothing of your utility bill).

### It's more than a shower. It's your reward for waking up.

The only downside to getting into a shower is the knowledge that you'll eventually have to get out again. But as long as the warm water lasts, it's a welcome intermission between rolling out of bed and rolling into work. We help you make the most of your morning, with a range of options that lets you create the perfect shower.

# We weren't satisfied with redesigning showerheads. So we decided to redesign water.

Nowhere is our commitment to innovation more visible than in the shower. Year after year, we've continually refined our showerheads and sprays, all in the name of providing you with a richer, more transformative showering experience. We haven't started redesigning your bar of soap yet—but we'd never say no to a challenge.

#### TEMP<sub>2</sub>O™ TECHNOLOGY:

Handshowers, showerheads, and tub and shower fixtures equipped with our Temp<sub>2</sub>O Technology eliminate surprises, by letting you know your water's temperature before you (or your family members) get into it. Built-in indicators change color from blue, to magenta, to red—letting users know at a glance when the water is safe and comfortable. For the extra-precise, an LED readout displays the exact numerical temperature.

#### H<sub>2</sub>OKINETIC® TECHNOLOGY:

H<sub>2</sub>Okinetic showerheads, handshowers and body sprays contain internal systems that control water's speed, movement and droplet size—creating the feeling of more water, without using more water.

#### HYDRACHOICE™ BODY SPRAY SYSTEM:

Our recessed HydraChoice Body Sprays don't pop out of the shower until you pop in. They're part of our HydraChoice Body Spray System, which lets you adjust the angle of the spray by 50° in any direction. That adjustability lets individuals customize their shower experience for maximum comfort (and really comes in handy when one member of the family is 5'6", and another is, say, 6'2").

### SINGLE-FUNCTION PRESSURE-BALANCED— Control Temperature

- Single control for temperature only
- Temperature is achieved by balancing the pressure of hot and cold water\*
- Cartridge included with all Monitor<sup>®</sup> 13 and 14 Series shower trims

### DUAL-FUNCTION PRESSURE-BALANCED— Control Temperature & Volume

- Control temperature and volume independently
- Temperature is achieved by balancing the pressure of hot and cold water\*
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all Monitor 17 Series shower trims

### DUAL-FUNCTION THERMOSTATIC— Control Temperature & Volume

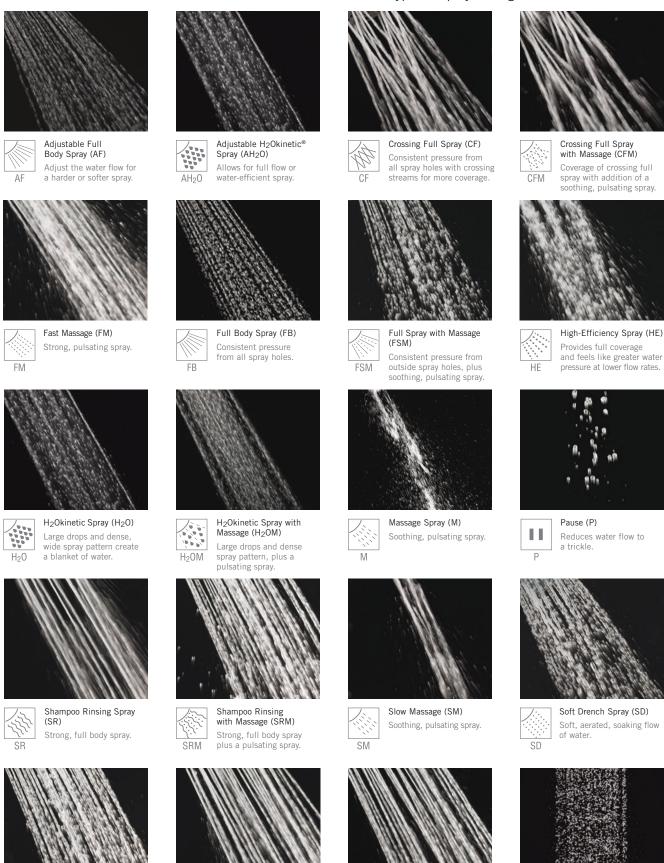

- Control temperature and volume independently
- Keeps precise water temperature (±3.6%)
   by measuring, monitoring, and automatically adjusting the water mix
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all TempAssure® 17T Series shower trims

<sup>\*</sup>When the inlet temperature limit stop is set correctly, and the water inlet temperature remains constant.

### Look for these icons in the bath and shower sections to determine types of spray settings.
